Born and raised in Idaho, Angela Veasy and her husband of 20 years, Patrick, today make their home in Meridian, ID. Her two children, Zach (23) and Samantha (21) graduated from college this past May, and she couldn’t be more proud of them. Angela is an avid golfer, tennis player and runner who loves outdoor activity. She also loves being part of her children’s lives. She and Patrick have owned and operated a small construction company for 17 years, where she has worked from a home office. “I wanted to be home so I could be involved in my children’s lives,” she says. “I loved being their soccer coach, art mom and team manager for many years, and I wouldn’t trade that time for anything!” Here, in her own words, is Angela’s story.

I’M MET SO MANY INSPIRING WOMEN… EACH OF THEM SUCCESSFUL!

“TIMING IS EVERYTHING … AND MY TIME IS NOW!”

I AM TOTALLY SOLD ON BIOCEUTICA!

I was introduced to Bioceutica by my friend Marilyn Smith. She was so excited about the changes that the products were making in her life that I instantly knew I needed more information about them. Being a huge health and fitness fanatic, the Custom Essentials really intrigued me. I had never heard of a company that formulated vitamins based on a urine test… except for professional athletes—and that cost them hundreds of dollars. I checked out Marilyn’s website in June of 2013 and joined the same day with the Nutraceutical starter kit. My PrivaTest results indicated that I was over supplementing, which over time, would cause more harm than good to my body.

Shortly after joining Bioceutica, an annual doctor visit proved the effectiveness of Bioceutica products in a profound way. For the past 2-3 years I have had higher than normal kidney/liver functions, and my doctor had referred me to a specialist as she was concerned for my health. After my blood work came back last August, my kidney/liver
functions were down significantly. The doctor was very curious as to what I had been doing to dramatically decrease my numbers. The only changes in my life were a single Detox with Proflorin, and one month of Custom Essentials. I’ve been totally sold on Bioceutica ever since!

I BEGAN A QUEST TO CHANGE LIVES …

Bioceutica products have been life changing for so many! Take FlexCaps, for example. One friend in particular has Multiple Sclerosis. I gave her a five-day sample of the FlexCaps, and the very next day she called me and said she was actually able to sleep through the night. For years she has been getting leg twitches throughout the night. Flex Caps took those twitches away and allowed her to get the sleep she needed. She is so happy that she doesn’t have to take Advil anymore.

And consider Lights Out. What a fabulous product! For years my husband has had a terrible time sleeping through the night. He wakes up several times and it is difficult for him to fall back to sleep. Not anymore! Now, even when he does wake up, he easily falls back to sleep, and in the morning he feels rested and ready for the day. I am so thankful for LightsOut! These are just a couple examples of how our Bioceutica products are changing lives. It motivates me to continue working my business because I am truly helping so many people feel better!

I AM SO EXCITED TO BE ON THIS JOURNEY!

Sharing my passion and helping people feel better put me on a cruise to the Bahamas last month with Bioceutica. This truly was a life changing experience for me. I met so many inspiring women in all stages of their lives, yet each of them successful in their Bioceutica business. They were so willing to share ideas and information that would help improve my business and help my team grow. CEO Candace Keefe made us feel valued and planted a seed of inspiration in each of us. I am very grateful for the opportunity to learn from our leaders and I am so excited to be on this journey with Bioceutica.

Bioceutica’s business plan is unique in that we have choices. We can sell cutting-edge products and earn extra income each month, or we can sponsor and build a business team to earn residual income as well as retail income. Having choices like this make it easier to build my team. I am happy I have made the choice to Feel Better, Look Better and Live Better with Bioceutia. I look forward to a Life Without Limits.
